SUMMARY

Fourth-year B.Tech Computer Science (AI-ML) student at VIT Bhopal with strong research, written communication, and stakeholder-outreach skills, backed by a Tele-Associate (cold-calling) certification and experience coordinating 300+ person teams. Comfortable translating complex technical ideas into clear, persuasive messaging for both technical and business audiences — able to speak the language of engineering leaders while driving outreach and relationship-building from the ground up.

RELEVANT STRENGTHS

- **Outreach & Cold Calling:** IndiaMART-certified Tele-Associate; comfortable with phone-first, multi-channel prospecting and handling objections.
- **Research & Stakeholder Mapping:** Experience digging into product, market, and organizational details to tailor messaging (applied across ML/data projects).
- **Business & Technical Fluency:** Engineering background enables credible conversations with technical stakeholders (CTOs, engineering leads) on infrastructure and talent topics.
- **Communication:** Track record of writing clearly and coordinating cross-functional groups (event teams, vendors, university administration).
- **Tools:** Python, SQL, MongoDB, Git — quick to pick up new platforms such as CRMs (Salesforce/HubSpot) and sales tools.

EDUCATION

Vellore Institute of Technology, Bhopal — Madhya Pradesh
B.Tech in Computer Science and Engineering (AI-ML) | CGPA: 8.76 2023 – 2027

St. Michael's Senior Secondary School — Gurugram, Haryana
Higher Secondary: 78% (2022–2023) | Matriculation: 87% (2020–2021)

ROLES OF RESPONSIBILITY

Team Management Lead — AdVITya'25 Annual Sports Fest, VIT Bhopal
Sep 2024 – Mar 2025

- Led and coordinated 300+ student volunteers across logistics, registration, and equipment management, ensuring zero major incidents.
- Acted as the primary point of contact between the event committee, vendors, and university administration, resolving on-ground issues in real time — building comfort with fast, high-stakes communication.
- Directed university-level sports events (cricket, football, track & field) for 1,500+ participants, managing schedules and stakeholder expectations end-to-end.

PROJECTS

AI-Powered Financial Management & Advisor — ML, MongoDB, Node.js

- Designed a finance platform focused on user trust and clarity — researched user needs to shape an intuitive value proposition around automated categorization and visual insights.
- Built an AI chatbot for real-time financial advice and a secure MongoDB backend, balancing feature depth with data privacy.

TennisVision – AI Tennis Analysis System — OpenCV, YOLOv8, DeepSORT

- Built a real-time analysis system translating raw video into clear, actionable feedback on player performance — distilling technical model output into insights a non-technical coach could use.
- Benchmarked players against elite performance data to reduce subjectivity in coaching decisions.

CERTIFICATIONS & EXTRACURRICULARS

- **Tele-Associate Freelancer Program Certification** — IndiaMART (Aug 2023): assessed and certified on outbound calling, pitching, and objection handling.
- Innovator Badge, Accenture Innovation Challenge — active participant in hackathons and coding challenges.
- NPTEL Certification – Cloud Computing (IIT).
- Applied Machine Learning in Python – University of Michigan.
- AWS Certification (in progress) – IntelliPaat Academy, expected Sep 2025.

TECHNICAL SKILLS

Languages: Python, Java, HTML, CSS

Databases: SQL, MongoDB

Frameworks/Libraries: Streamlit, Scikit-learn, Pandas, Matplotlib, OpenCV, YOLOv8, DeepSORT

Tools/Platforms: Git, GitHub, Node.js
